

## Detailed clinic program on Friday, January 13

### Main Ring

Clinics in the main ring will be translated into English that can be listened to by headphones you can rent from the visitors' counter.

**9:30 a.m.-10:20 a.m.    Combination IBOP & Driving Clinic**  
given by Udo de Haan and Herman Smit

In this clinic, Udo de Haan and Herman Smit explain the training/assessment of the IBOP driving test.

**10:30 a.m.-11:20 a.m.    Choice of stallion & veterinary aspects**  
given by Ben Horsmans (made possible by the association of mare managers)

This clinic provides information about the choice of a stallion and the various veterinary aspects relating to both mare and stallion.

**11:30 a.m.-12.20 p.m.    Judging the Friesian Horse**  
given by Louise Hompe & Sabien Zwaga  
(foregoing theory class in WTC -Moscow)

The Jury pays attention to various aspects of the Friesian horse. This clinic clarifies what the jury is looking for during its inspections. You can also attend a theory class before this practical session.

**12:30 p.m. - 1:20 p.m.    Dressage Clinic**  
given by Adelinde Cornelissen

Adelinde will be teaching the 2 best mount and rider teams in the sub-top: Judith Pietersen on Tsjabring 429 Sport & Laura Zwart on Hedser 465 Sport.

**1:30 p.m.-2:30 p.m.    Obstacle cone driving for visitors**  
given by Emiel Verweij & Anno Valkema in cooperation with De Oorsprong

A short-distance obstacle cone driving competition – and visitors can participate, too! Who will win the obstacle cone driving competition? Come and watch – and participate, too – in the main ring.

### Monster ring

**10:00 a.m.-12:00 noon    When and how applying Aluminum shoes**  
given by Farrier Douwe Dokter

Farrier Douwe Dokter will tell you more about the advantages and disadvantages of the use of aluminum shoes. He will show the forging of an aluminum shoe and then give a shoeing demonstration.

## Warm-up ring

**9:30 a.m.-10:20 a.m.    Readyng and presenting a horse for inspection**  
given by Sjoerd Meekma

Preparing a horse for inspection involves a lot more than washing and currying your horse. It also means training, grooming and feeding the horse in such a way as to emphasize its strong points and improve its weaker points. The proper presentation of your horse at the inspection is the final step.

**10.30 a.m.-11:20 a.m.    Your Friesian horse in top condition**  
given by Hippiek – Martsje Bergsma

Proper nutrition, stabling, hoof care and well-fitting tack are important, but just as important are good training and caring for the muscles. This clinic addresses how the muscles work and common problems associated with this.

**12:30 p.m.-2:30 p.m.    Naturopathy for horses (theory & practice)**  
given by Gerrit Zomer

Gerrit Zomer has been using the Lecher antenna and pendulum for more than 10 years for taking measurements of horses. By using these methods in combination with observations of the owner/caretaker, the cause and treatment method can be determined.

## New York 1 (WTC Hotel, second floor)

**9:30 a.m.-10:20 a.m.    Export requirements for horses, worldwide**   
given by the Dutch Food and Consumer Product Safety Board - D.M. Eijmaal

What are the reasons for export requirements? What is the purpose of quarantine in both the exporting and importing country? Ms. Eijmaal will explain the underlying reasons for legislation regarding the export requirements that apply to horses, semen and embryos.

**10:30 a.m.-11:20 a.m.    Export requirements for horses, worldwide**   
given by the Dutch Food and Consumer Product Safety Board Drs. D.M. Eijmaal

**11:30 a.m.-12:20 p.m.    Which stallion to choose for your mare**   
given by Henk Minkema

During the workshop on choosing a stallion, you will learn how you as a breeder can increase your chance of achieving the breeding product you want. Included here will be formulating your own breeding objective, setting priorities and taking various factors into consideration. The tools available to you from the studbook will be discussed in detail. You will learn not only by listening but also by gaining hands-on experience in selecting the right stallion for a mare.

**12:30 p.m.-1:20 p.m. BREAK**

**1:30 p.m.-2:20 p.m. Meet & Greet Adelinde Cornelissen**  

Would you like to know how Adelinde trains her horses – including a Friesian stallion? How has she reached this level? And what are her expectations for the Olympic Games in London? This hour gives you an opportunity to ask Adelinde your own questions.

## **New York 2 (WTC Hotel, 2nd floor)**

**9:30 a.m.-10:20 a.m. Possibilities for frozen semen and embryo transplants**   
given by Prof. T. Stout  
(made possible in part by the association of Friesian stallion managers)

What are the latest developments regarding getting mares in foal with the use of frozen semen or embryo transplant?

**10:30 a.m.-11:20 a.m. Effective deworming (NHK)**   
given by F. Westerduin

Worm resistance is becoming more common. So common that we may run out of worming agents to protect our horses in the future. How can our daily practices prevent this?

**11:30 a.m.-12:20 p.m. Revolutionary breakthrough in research into nutrition and OCD**   
given by PAVO – Robert Krabbenborg (Product Manager, PAVO)

Last year, PAVO worked together with the Animal Health Service and the Faculty of Veterinary Medicine in Utrecht in conducting research into the effect of nutrition on the development of OC/OCD among young foals. This clinic will reveal some interesting findings.

**12:30 p.m.-1:20 p.m. BREAK**

**1:30 p.m.-2:20 p.m. Revolutionary breakthrough in research into nutrition and OCD**   
given by PAVO – Robert Krabbenborg (Product Manager, PAVO)

## **Moscow (WTC Hotel, 1st floor)**

**9:30 a.m.-10:20 a.m. Taking photographs of the Friesian horse**   
given by Arnd Bronkhorst

How to take the best pictures of a Friesian horse! The best way to use the camera to capture their characteristic qualities.

**10:30 a.m.-11:20 a.m.**

**Judging the Friesian Horse** 

given by Louise Hompe & Sabien Zwaga  
(practical demo afterward in main ring)

After watching this clinic, you will know more about the judging that goes on during the inspections. Theoretical knowledge will be demonstrated in practice in the large ring by means of actual examples.

**11:30 a.m.-12:20 p.m.**

**New insights into veterinary support for high-ranking sport horses** 

given by Veterinary Clinic Wolvega  
W. A. Haytema & D. van de Winkel

An overview of common injuries among sport horses, their prevention, and an overview of the latest therapies.

**12:30 p.m.-1:20 p.m.**

**Break**

**1:30 p.m.-2:30 p.m.**

**New insights into veterinary support for high-ranking sport horses** 

given by Veterinary Clinic Wolvega  
W. A. Haytema & D. van de Winkel
